Discussion	
<ol style="list-style-type: none"> 1. Discussion: Symposium Abstracts <ul style="list-style-type: none"> ○ Symposium selection: process is performed by scientific program committee. Provide score based on multiple criteria including: novelty, perceived interest, rigor. ○ Multiple topics were put forward to serve as standalone abstracts or components of others including ebola vaccine use in pregnant women, disease registries, validation, precision vaccines. ○ Group coalesced around topic involving vaccine/medication utilization in LMIC that could incorporate the public health issue of ebola vaccine use in pregnant women and safety monitoring. ○ Recommended we consider working with another SIG. 2. Next Meeting: February 6, 9 am EST <ul style="list-style-type: none"> ○ Kaatje Bollaerts, PhD
