EUROPEAN DRUG UTILISATION RESEARCH GROUP (EURODURG) CONFERENCE 2020

Medicines: benefits and burdens

Policy and practice response to current and evolving therapies

This is a key conference for researchers, health authorities, policy makers, practising health care professionals, and other communities interested in the safe, efficient and effective use of medicines.

MARCH 4-7, 2020 | UNIVERSITY OF SZEGED, HUNGARY
TOPICS:
• Multimorbidity and the evolving challenge of polypharmacy
• Innovative medicines - opportunities and challenges
• Emerging data capabilities: the opportunities and challenges for DUR
• Antimicrobial Resistance: a One-Health Approach

As well as other familiar drug utilisation topics covering specific therapeutic and patient groups, adherence, intervention and implementation.

Key workshops: appropriate vs inappropriate polypharmacy, policy/practise focus of de-prescribing, DUR in management of new medicines
